BIO

GOODGEAR is the DJ project of Sam Goodger, a Sydney-based selector who lives where house, tech house, trance and pop collide. He grew up loving everything from pop to rock and metalcore. After moving to Sydney, electronic music took over, and in 2025 he started DJing.

In September 2025 he played Morning Glory: Day Rave at Home The Venue, followed in October by Halloween Wh*res at Kinselas. In the middle of this year he became a regular feature at ARQ Nightclub in Darlinghurst, playing GAYM's YOU party with house and tech house sets.

Expect big vocals, pop edits and driving four-on-the-floor grooves built for queer dancefloors. Mixes are on SoundCloud (soundcloud.com/goodgear). Available for clubs, parties and private events.
